The screenshot shows a Microsoft Internet Explorer window titled "Weblogic Administration Tools Portal - Microsoft Internet Explorer provided by Flester Dubb Meyer & Lovejoy". The address bar shows the URL <http://weblogic:7001/portalAppAdmin/portal.portal>. The menu bar includes File, Edit, View, Favorites, Tools, Help, Address, and Go. Below the menu is a toolbar with Back, Forward, Stop, Refresh, Search, Favorites, and Help buttons.

The main content area has a "bea" logo and navigation tabs: "Users, Groups, & Roles", "Interaction Management", "Portal Management", and "Server Administration". Under "Portal Management", the "Content" tab is selected. On the left, a sidebar titled "Create & Edit Types" shows a "Type List" with items like "Virtual Content Repository", "BEA Repository", "article", "image", "new_hire", "product", "test_type", and "Color". The "Color" item is expanded, showing sub-options: "Description", "Image", "SKU", "Style".

The central panel is titled "Update Property" for the "Color" schema product in the "BEA Repository". It contains fields for "Name" (set to "Color"), "Required" (unchecked), "Read-Only" (unchecked), and "Primary Property" (unchecked). It also includes sections for "Data Type" (radio buttons for String, Double, Integer, Calendar, Boolean, and Binary) and "Choice Type" (radio buttons for Single Unrestricted, Single Restricted, Multiple Unrestricted, and Multiple Restricted). A note below the choice type section states: "If checked, it implies that the property is mapped to a database column in the FM_NODE Table (only applicable to BEA Repositories). Please specify column name in the text box." At the bottom right is an "Update" button.

Annotations with numbers are present: "1000" points to the "Server Administration" tab; "1008" points to the "Color" item in the sidebar; "1002" points to the "Color" entry in the "Type List"; "1004" points to the "Update" button; and "1006" points to the "Choice Type" section.
